

Environment Protection Licence**Licence Details**

Number: 13089

Anniversary Date: 26-May

Licensee

BLUE MOUNTAINS CITY COUNCIL

LOCKED BAG 1005

KATOOMBA NSW 2780

Premises

Katoomba Waste Management Facility

49-89 & 70-78 WOODLANDS ROAD

KATOOMBA NSW 2780

Scheduled Activity (Act)**Licensing Fee Category
(Regulation)****Scale**

Resource recovery - Recovery of general waste

Recovery of general waste

Any general waste recovered

Waste processing (non-thermal treatment) -
Non-thermal treatment of general wasteNon-thermal treatment of
general waste

Any annual processing capacity

Waste storage

Waste storage - other
types of waste

Any other types of waste stored

Composting

Composting

> 5000 - 50000 T annual
capacity to receive organics

Waste storage

Waste storage - waste
tyres

> Any tyres stored

Information about this licence

Dictionary

A definition of terms used in the licence can be found in the dictionary at the end of this licence.

Responsibilities of licensee

Separate to the requirements of this licence, general obligations of licensees are set out in the Protection of the Environment Operations Act 1997 ("the Act") and the Regulations made under the Act. These include obligations to:

- ensure persons associated with you comply with this licence, as set out in section 64 of the Act;
- control the pollution of waters and the pollution of air (see for example sections 120 - 132 of the Act);
- report incidents causing or threatening material environmental harm to the environment, as set out in Part 5.7 of the Act.

Variation of licence conditions

The licence holder can apply to vary the conditions of this licence. An application form for this purpose is available from the EPA.

The EPA may also vary the conditions of the licence at any time by written notice without an application being made.

Where a licence has been granted in relation to development which was assessed under the Environmental Planning and Assessment Act 1979 in accordance with the procedures applying to integrated development, the EPA may not impose conditions which are inconsistent with the development consent conditions until the licence is first reviewed under Part 3.6 of the Act.

Duration of licence

This licence will remain in force until the licence is surrendered by the licence holder or until it is suspended or revoked by the EPA or the Minister. A licence may only be surrendered with the written approval of the EPA.

Licence review

The Act requires that the EPA review your licence at least every 5 years after the issue of the licence, as set out in Part 3.6 and Schedule 5 of the Act. You will receive advance notice of the licence review.

Fees and information to be sent to the EPA

For each licence fee period you must pay:

- an administrative fee; and
- a load-based fee (if applicable).

Environment Protection Licence

Usually, the licence fee period is the same as the reporting period.

The EPA publication “A Guide to Licensing” contains information about how to calculate your licence fees.

A licence subject to load-based licensing (LBL) requires an Annual Return to be submitted to the EPA, comprising a Statement of Compliance for Load Based Fee Calculation for each assessable pollutant required by the licence. The Annual Return must be submitted by the “due date”, as defined in the dictionary at the end of the licence. Refer to the Annual Return reporting requirements under Section 6 “Reporting Conditions”.

Transfer of licence

The licence holder can apply to transfer the licence to another person. An application form for this purpose is available from the EPA.

Public register and access to monitoring data

Part 9.5 of the Act requires the EPA to keep a public register of details and decisions of the EPA in relation to, for example:

- licence applications;
- licence conditions and variations;
- statements of compliance;
- load based licensing information; and
- load reduction agreements.

Under s320 of the Act application can be made to the EPA for access to monitoring data which has been submitted to the EPA by licensees.

This licence is issued to:

<u>Licensee</u>
BLUE MOUNTAINS CITY COUNCIL
LOCKED BAG 1005
KATOOMBA NSW 2780

subject to the conditions which follow.

1 Administrative Conditions

A1 What the licence authorises and regulates

A1.1 This licence authorises the carrying out of the scheduled activities listed below at the premises specified in A2. The activities are listed according to their Scheduled Activity (Act) classification, Licensing Fee Category (Regulation) classification and the scale of the operation.

Unless otherwise further restricted by a condition of this licence, the scale at which the activity is carried out must not exceed the maximum scale specified in this condition.

<u>Scheduled Activity (Act)</u>	<u>Licensing Fee Category (Regulation)</u>	<u>Scale</u>
Resource recovery - Recovery of general waste	Recovery of general waste	Any general waste recovered
Waste processing (non-thermal treatment) - Non-thermal treatment of general waste	Non-thermal treatment of general waste	Any annual processing capacity
Waste storage	Waste storage - other types of waste	Any other types of waste stored
Composting	Composting	> 5000 - 50000 T annual capacity to receive organics
Waste storage	Waste storage - waste tyres	> Any tyres stored

A2 Premises or plant to which this licence applies

A2.1 The licence applies to the following premises:

<u>Premises Details</u>
Katoomba Waste Management Facility
49-89 & 70-78 WOODLANDS ROAD
KATOOMBA NSW 2780
LOT //DP

LOT A, DP 383122; LOT 139, DP 751627; LOT 2, DP 178250; LOT 3, DP 178250; LOT 3, DP 178250; LOT 2, DP 564619; LOT 13, DP 5869; LOT 14, DP 5869; LOT 15, DP 5869

A2.2 In relation to Condition A2.1, the premises is defined by the areas in the Map provided by the licensee on 16 May 2025 (EPA Ref: DOC25/322610-2) identified as "Licence Boundary"

A3 Information supplied to the EPA

A3.1 Works and activities must be carried out in accordance with the proposal contained in the licence application, except as expressly provided by a condition of this licence.

In this condition the reference to "the licence application" includes a reference to:

a) the applications for any licences (including former pollution control approvals) which this licence replaces under the Protection of the Environment Operations (Savings and Transitional) Regulation 1998; and

b) the licence information form provided by the licensee to the EPA to assist the EPA in connection with the issuing of this licence.

A3.2 The Landfill Environmental Management Plan (LEMP) is not to be taken as part of the documentation in A3.1, other than those parts specifically referenced in this licence.

Note: For the purposes of this licence the abbreviation "LEMP" is defined as the document titled 'Katoomba Waste Management Facility Post Closure Management Plan' compiled by Blue Mountains City Council, dated 21 November 2017 (EPA Ref: DOC18/85072).

2 Discharges to Air and Water and Applications to Land

P1 Location of monitoring/discharge points and areas

P1.1 The following points referred to in the table below are identified in this licence for the purposes of monitoring and/or the setting of limits for the emission of pollutants to the air from the point.

Air

EPA Identification Number	Point Type	Point Type Description	Location Description
1	Monitoring	Air Emissions Monitoring	Landfill gas monitoring locations conducted in a grid pattern over the landfill footprint. Monitoring locations labelled on map titled "Monitoring Points", sent to the EPA

Environment Protection Licence

			on 16 May 2025. (EPA Reference: DOC25/322610-4)
--	--	--	---

P1.2

The following points referred to in the table are identified in this licence for the purposes of the monitoring and/or the setting of limits for discharges of pollutants to water from the point.

Water and Land

EPA Identification Number	Type of Monitoring Point	Type of Discharge Point	Location Description
2	Discharge to waters effluent quality monitoring	Discharge to waters effluent quality monitoring	Monitoring location labelled 'E01'™ on map titled 'Monitoring Points', sent to the EPA on 16 May 2025. (EPA Reference: DOC25/322610-3)
3	Discharge to waters effluent quality monitoring	Discharge to waters effluent quality monitoring	Monitoring location labelled 'E02'™ on map titled 'Monitoring Points', sent to the EPA on 16 May 2025. (EPA Reference: DOC25/322610-3)
4	Surface Water		Monitoring location labelled 'S01A'™ on map titled 'Monitoring Points', sent to the EPA on 16 May 2025. (EPA Reference: DOC25/322610-3)
5	Surface water		Monitoring location labelled 'S03'™ on map titled 'Monitoring Points', sent to the EPA on 16 May 2025. (EPA Reference: DOC25/322610-3)
6	Surface water		Monitoring location labelled 'S05'™ on

Environment Protection Licence

			map titled "Monitoring Points", sent to the EPA on 16 May 2025. (EPA Reference: DOC25/322610-3)

15	Groundwater		Monitoring location labelled â€˜MW10Aâ€™™ on map titled â€œMonitoring Pointsâ€œ, sent to the EPA on 16 May 2025. (EPA Reference: DOC25/322610-3)
16	Groundwater		Monitoring location labelled â€˜MW11Bâ€™™ on map titled â€œMonitoring Pointsâ€œ, sent to the EPA on 16 May 2025. (EPA Reference: DOC25/322610-3)
17	Groundwater		Monitoring location labelled â€˜MW12â€™™ on map titled â€œMonitoring

Environment Protection Licence

			Pointsâ€¸, sent to the EPA on 16 May 2025. (EPA Reference: DOC25/322610-3)
18	Leachate		Monitoring location labelled â€¸L01â€¸™ on map titled â€¸Monitoring Pointsâ€¸, sent to the EPA on 16 May 2025. (EPA Reference: DOC25/322610-3)

3 Limit Conditions

L1 Pollution of waters

- L1.1** Except as may be expressly provided in any other condition of this licence, the licensee must comply with section 120 of the Protection of the Environment Operations Act 1997.

L2 Concentration limits

- L2.1** For each monitoring/discharge point or utilisation area specified in the table/s below (by a point number), the concentration of a pollutant discharged at that point, or applied to that area, must not exceed the concentration limits specified for that pollutant in the table.
- L2.2** Where a pH quality limit is specified in the table, the specified percentage of samples must be within the specified ranges.
- L2.3** To avoid any doubt, this condition does not authorise the pollution of waters by any pollutant other than those specified in the table/s.
- L2.4** Water and/or Land Concentration Limits

POINT 2,3

Pollutant	UOM	50 Percentile concentration limit	90 Percentile concentration limit	3DGM concentration limit	100 percentile concentration limit
Ammonia	milligrams per litre				0.9
pH	pH				6.5-8.5

Environment Protection Licence

Total suspended solids	milligrams per litre				50
------------------------	----------------------	--	--	--	----

L2.5 Exceedance of the Total Suspended Solids concentration limit specified in L2.4 is permitted for discharge from Point 2 and Point 3 only under the following circumstances:

- a) the discharge from Point 2 and Point 3 occurs solely as a result of a rainfall event at the premises that is greater than a 1 in 10 year recurrence interval of 24 hours duration; and
- b) the licensee has taken all practical measures to avoid or minimise water pollution.

L3 Waste

L3.1 The licensee must not cause, permit or allow any waste to be received at the premises, except the wastes expressly referred to in the column titled "Waste" and meeting the definition, if any, in the column titled "Description" in the table below.

Any waste received at the premises must only be used for the activities referred to in relation to that waste in the column titled "Activity" in the table below.

Any waste received at the premises is subject to those limits or conditions, if any, referred to in relation to that waste contained in the column titled "Other Limits" in the table below.

This condition does not limit any other conditions in this licence.

Waste	Description	Activity	Other Limits
NA - Waste	Any waste received on site that is below licencing thresholds in schedule 1 of the POEO Act, as in force from time to time	-	NA
NA - General or Specific exempted waste	As defined in Schedule 1 of the POEO Act, as in force from time to time.	As specified in each particular resource recovery exemption	NA
NA - Special waste	As defined in Schedule 1 of the POEO Act, as in force from time to time.	Resource recovery, Waste processing (non-thermal treatment), Waste storage	Must not exceed 750 tyres or 6 tonnes tyres stored at any one time
NA - Liquid Waste	As defined in Schedule 1 of the POEO Act, as in force from time to time.	Waste storage	Must only originate from waste stored within the Community Recycling Centre or the Household

Environment Protection Licence

			Chemical Collection program co-ordinated by the Licensee and not exceed 15 tonnes at any one time.
NA - Hazardous Wastes	As defined in Schedule 1 of the POEO Act, as in force from time to time.	Waste storage	Must only originate from waste stored within the Community Recycling Centre or the Household Chemical Collection program co-ordinated by the Licensee and not exceed 15 tonnes at any one time.
NA - General solid waste (putrescible)	As defined in Schedule 1 of the POEO Act, as in force from time to time.	Resource recovery, Waste processing (non-thermal treatment), Waste storage	Must not exceed 250 tonnes stored at any one time.
NA - General solid waste (non-putrescible)	As defined in Schedule 1 of the POEO Act, as in force from time to time.	Composting, Resource recovery, Waste processing (non-thermal treatment), Waste storage	Unprocessed Garden Waste must not exceed 1000 tonnes at any one time. Processed Garden Waste/Compost must not exceed 1000 tonnes at any one time.
NA - Wood waste	As defined in Schedule 1 of the POEO Act, as in force from time to time.	Composting, Waste storage	

L3.2

Tyres may be stockpiled at the premises only if:

- a) the total quantity stockpiled at the premises at any one time does not exceed 6 tonnes;
- b) the stockpiles are located in a clearly defined area;
- c) the stockpiles are stored and managed so as not to cause or be likely to cause off-site environmental effects (such as the spread of disease by vermin);
- d) the licensee accepts full responsibility for the tyres while stockpiled at the premises; and
- e) all practicable measures are taken to prevent any tyres from catching fire.

L3.3

The authorised amount of waste permitted on the premises cannot exceed 20,400 tonnes at any one time.

L4 Hours of operation

- L4.1** All work at the premises must only be conducted between the hours of 7am to 7pm Monday to Sunday, including public holidays.

L5 Potentially offensive odour

- L5.1** No condition of this licence identifies a potentially offensive odour for the purposes of section 129 of the Protection of the Environment Operations Act 1997.

Note: Section 129 of the Protection of the Environment Operations Act 1997, provides that the licensee must not cause or permit the emission of any offensive odour from the premises but provides a defence if the emission is identified in the relevant environment protection licence as a potentially offensive odour and the odour was emitted in accordance with the conditions of a licence directed at minimising odour.

4 Operating Conditions

O1 Activities must be carried out in a competent manner

- O1.1** Licensed activities must be carried out in a competent manner.
This includes:
a) the processing, handling, movement and storage of materials and substances used to carry out the activity; and
b) the treatment, storage, processing, reprocessing, transport and disposal of waste generated by the activity.
- O1.2** All operations and activities occurring at the premises must be carried out in a manner that will prevent and minimise the risk of fire at the premises.

O2 Maintenance of plant and equipment

- O2.1** All plant and equipment installed at the premises or used in connection with the licensed activity:
a) must be maintained in a proper and efficient condition; and
b) must be operated in a proper and efficient manner.

O3 Dust

- O3.1** The premises must be maintained in a condition which minimises or prevents the emission of dust from the premises.
- O3.2** Activities occurring in or on the premises must be carried out in a manner that will minimise the generation, or emission from the premises, of wind-blown or traffic generated dust.

O4 Emergency response

- O4.1** The licensee must maintain, and implement as necessary, a current emergency response plan for the premises. The licensee must keep the emergency response plan on the premises at all times.

Environment Protection Licence

The emergency response plan must document systems and procedures to deal with all types of incidents (e.g. spills, explosions or fire) that may occur at the premises or that may be associated with activities that occur at the premises and which are likely to cause harm to the environment. If a current emergency response plan does not exist at the date on which this condition is attached to the licence, the licensee must develop an emergency response plan within three months of that date.

O5 Processes and management

O5.1 The licensee must take all practicable steps to control entry to the premises.

O6 Waste management

O6.1 Any liquid/leachate emanating from the handling, bailing, compacting, wrapping or storage of waste must be collected and disposed of at a facility that can lawfully accept that liquid/leachate.

O6.2 There must be no incineration or burning of any waste at the premises.

O6.3 Where wastes are received at the premises for the purposes of reuse, reprocessing, recovery, recycling or transfer, then such wastes are not required to be covered on a daily basis provided that: a) such wastes are stored and managed so as not to cause or be likely to cause any off-site environmental effects; and b) such wastes are stored in a clearly defined area of the premises.

O6.4 The licensee must implement procedures to detect and remove from the premises, any waste not permitted by this licence to be disposed of at premises.

O6.5 Surface drainage must be diverted away from any area where waste has been landfilled.

O6.6 The landfill surface must be contoured to prevent the run-on of surface waters onto areas where waste has been landfill, except during storm events of not less than a 1 in 10-year recurrence interval of 24 hours duration.

O6.7 Leachate must only be disposed of at a facility by the following methods: a) disposal at a facility licensed to accept such waste; or b) irrigation onto completed areas of the landfill; or c) injection into the waste disposal cells at the premises.

O6.8 The licensee must maintain a leachate management system with sufficient capacity to store, without discharge to waters, all leachate generated at the premises up to and including a 1 in 25 year average recurrence interval 24 hour rainfall event.

O6.9 The licensee must maintain all leachate storage dams in accordance with the following:
a) Must have a freeboard that can accept rainfall directly on the dam from a 1 in 25 year average recurrence interval 24 hour rainfall event without overflowing;
b) The dam must have a visible marker to indicate the bottom depth of the required freeboard;
c) Must be lined in accordance with condition O6.10 or incorporates a lining system that demonstrates equivalent or better containment.

O6.10 A leachate barrier system exhibiting an in-situ coefficient of permeability of less than 10^{-9} m/sec must be installed on each surface within the premises that is used for the drainage and storage of leachate. This condition only applies to surfaces used for the emplacement of leachate that are constructed after 13 December 1999.

O7 Other operating conditions

- O7.1** Chemicals which have been collected through the Community Recycling Centre in conjunction with the 'Household Chemical Collection Program' must be stored in a bunded, roofed and secure location within the premises pending the appropriate disposal or recycling of these chemicals.

5 Monitoring and Recording Conditions

M1 Monitoring records

- M1.1** The results of any monitoring required to be conducted by this licence or a load calculation protocol must be recorded and retained as set out in this condition.
- M1.2** All records required to be kept by this licence must be:
- a) in a legible form, or in a form that can readily be reduced to a legible form;
 - b) kept for at least 4 years after the monitoring or event to which they relate took place; and
 - c) produced in a legible form to any authorised officer of the EPA who asks to see them.
- M1.3** The following records must be kept in respect of any samples required to be collected for the purposes of this licence:
- a) the date(s) on which the sample was taken;
 - b) the time(s) at which the sample was collected;
 - c) the EPA point identification number for the point at which the sample was taken; and
 - d) the name of the person who collected the sample

M2 Requirement to monitor concentration of pollutants discharged

- M2.1** For each monitoring/discharge point or utilisation area specified below (by a point number), the licensee must monitor (by sampling and obtaining results by analysis) the concentration of each pollutant specified in Column 1. The licensee must use the sampling method, units of measure, and sample at the frequency, specified opposite in the other columns:

M2.2 Air Monitoring Requirements

POINT 1

Pollutant	UOM	Frequency	Sampling Methods
Methane	percent by volume	Quarterly	Special Method 1

M2.3 Water and/ or Land Monitoring Requirements

Total suspended solids	milligrams per litre	Quarterly	Grab sample

M2.4 For the purpose of the table above:

- a) "Special Frequency 1" means within the first 24 hours of discharge.
- b) "Special Method 1" means in accordance with Benchmark Technique 17 of the EPA's "Environmental Guidelines: Solid Waste Landfills" 2016.

M3 Testing methods - concentration limits

Note: The *Protection of the Environment Operations (Clean Air) Regulation 2022* requires testing for certain purposes to be conducted in accordance with test methods contained in the publication "Approved Methods for the Sampling and Analysis of Air Pollutants in NSW".

M3.1 Monitoring for the concentration of a pollutant emitted to the air required to be conducted by this licence must be done in accordance with:

- a) any methodology which is required by or under the Act to be used for the testing of the concentration of the pollutant; or
- b) if no such requirement is imposed by or under the Act, any methodology which a condition of this licence requires to be used for that testing; or
- c) if no such requirement is imposed by or under the Act or by a condition of this licence, any methodology approved in writing by the EPA for the purposes of that testing prior to the testing taking place.

M3.2 Subject to any express provision to the contrary in this licence, monitoring for the concentration of a pollutant discharged to waters or applied to a utilisation area must be done in accordance with the Approved Methods Publication unless another method has been approved by the EPA in writing before any tests are conducted.

M4 Weather monitoring

M4.1 A weather station must be operated and maintained at the premises to monitor and record daily rainfall.

M5 Recording of pollution complaints

M5.1 The licensee must keep a legible record of all complaints made to the licensee or any employee or agent of the licensee in relation to pollution arising from any activity to which this licence applies.

Environment Protection Licence

- M5.2** The record must include details of the following:
- a) the date and time of the complaint;
 - b) the method by which the complaint was made;
 - c) any personal details of the complainant which were provided by the complainant or, if no such details were provided, a note to that effect;
 - d) the nature of the complaint;
 - e) the action taken by the licensee in relation to the complaint, including any follow-up contact with the complainant; and
 - f) if no action was taken by the licensee, the reasons why no action was taken.
- M5.3** The record of a complaint must be kept for at least 4 years after the complaint was made.
- M5.4** The record must be produced to any authorised officer of the EPA who asks to see them.

M6 Telephone complaints line

- M6.1** The licensee must operate during its operating hours a telephone complaints line for the purpose of receiving any complaints from members of the public in relation to activities conducted at the premises or by the vehicle or mobile plant, unless otherwise specified in the licence.
- M6.2** The licensee must notify the public of the complaints line telephone number and the fact that it is a complaints line so that the impacted community knows how to make a complaint.
- M6.3** The preceding two conditions do not apply until 3 months after: the date of the issue of this licence.

M7 Other monitoring and recording conditions

- M7.1** Gas accumulation monitoring for methane gas must be undertaken on a quarterly basis within all buildings and structures located on the premises.
- M7.2** The gas accumulation monitoring must be undertaken in accordance with the methods specified in "Environmental Guidelines: Solid Waste Landfills" EPA, 2016.
- M7.3** If the gas accumulation monitoring indicates methane concentrations greater than 1% v/v in any building or structure on the premises then the licensee must:
- a) Notify the EPA within 24 hours, and
 - b) Within 7 days of undertaking the monitoring provide the EPA with a written report of the results of the gas accumulation monitoring.

6 Reporting Conditions

R1 Compliance, and annual reporting requirements

Compliance with licence conditions

- R1.1** The licensee must supply the EPA, via the EPA's online digital portal, the following details of any non-compliance with the conditions of the licence within 21 days after the licensee becomes aware of the non-compliance:
- a. the date the licensee became aware of the non-compliance;

Environment Protection Licence

- b. the date(s) the non-compliance occurred, including if the non-compliance is continuing;
- c. whether the non-compliance relates to air, water/land, noise or waste matters (if applicable);
- d. whether the non-compliance relates to a pollution incident;
- e. the licence condition(s) not complied with;
- f. a summary of particulars of the non-compliance, including (if known):
 - i. the location where the non-compliance occurred;
 - ii. the duration of the non-compliance;
 - iii. if the non-compliance is continuing, the suspected end date of the non-compliance;
- g. the cause or suspected cause of the non-compliance;
- h. any action taken, or proposed to be taken, to mitigate the effects of the non-compliance; and
- i. any action taken, or proposed to be taken, to prevent a recurrence of the non-compliance.

R1.2 The EPA may make a written request for further details in relation to each non-compliance reported in accordance with Condition R1.1. The licensee must provide such further details to the EPA, via the EPA's online digital portal, within the time specified in the request.

R1.3 Condition R1.1 does not apply where a non-compliance with a licence condition has been identified by the EPA as part of an EPA environmental compliance audit.

Reporting transition arrangements

R1.4 By 05 August 2026, the licensee must supply to the EPA, via the EPA's online digital portal the details required in Condition R1.1 for any non-compliance with the conditions of the licence that occurred:

- i. after the date the licensee supplied their last Statement of Compliance - Licence Conditions to the EPA, and
- ii. before the date of the notice of variation of licence that added this condition to this Licence.

Pollution monitoring data summary

R1.5 If the licensee undertakes monitoring as a result of a licence condition, the licensee must supply to the EPA a summary of the results of the pollution monitoring data in respect of each reporting period. The summary must be provided as a Microsoft Excel file, formatted with the following column headings:

- a. EPA point identification number;
- b. pollutant;
- c. unit of measure;
- d. number of samples required;
- e. number of samples collected and analysed;
- f. lowest sample value;
- g. mean of sample values; and
- h. highest sample value.

The pollution monitoring data summary for the reporting period must be supplied to the EPA via the EPA's online digital portal by the "due date", as defined in the dictionary at the end of this licence.

Environment Protection Licence

R2 Notification of environmental harm

R2.1 Notifications must be made by telephoning the Environment Line service on 131 555.

Note: The licensee or its employees must notify all relevant authorities of incidents causing or threatening material harm to the environment immediately after the person becomes aware of the incident in accordance with the requirements of Part 5.7 of the Act.

R2.2 The licensee must provide written details of the notification to the EPA within 7 days of the date on which they became aware of the incident.

R2.3 In accordance with R2.1, the licensee must notify the EPA within 24 hours if landfill gas monitoring at Point 1 detects more than 1% methane (v/v), and increase the frequency of monitoring to daily, until the EPA determines otherwise.

R3 Written report

R3.1 Where an authorised officer of the EPA suspects on reasonable grounds that:
a) where this licence applies to premises, an event has occurred at the premises; or
b) where this licence applies to vehicles or mobile plant, an event has occurred in connection with the carrying out of the activities authorised by this licence, and the event has caused, is causing or is likely to cause material harm to the environment (whether the harm occurs on or off premises to which the licence applies), the authorised officer may request a written report of the event.

R3.2 The licensee must make all reasonable inquiries in relation to the event and supply the report to the EPA within such time as may be specified in the request.

R3.3 The request may require a report which includes any or all of the following information:
a) the cause, time and duration of the event;
b) the type, volume and concentration of every pollutant discharged as a result of the event;
c) the name, address and business hours telephone number of employees or agents of the licensee, or a specified class of them, who witnessed the event;
d) the name, address and business hours telephone number of every other person (of whom the licensee is aware) who witnessed the event, unless the licensee has been unable to obtain that information after making reasonable effort;
e) action taken by the licensee in relation to the event, including any follow-up contact with any complainants;
f) details of any measure taken or proposed to be taken to prevent or mitigate against a recurrence of such an event; and
g) any other relevant matters.

R3.4 The EPA may make a written request for further details in relation to any of the above matters if it is not satisfied with the report provided by the licensee. The licensee must provide such further details to the EPA within the time specified in the request.

R4 Other reporting conditions

R4.1 The licensee must maintain a daily log and record the following data of fires at the site:
a) Time and date when the fire was deliberately started or reported.
b) Whether the fire was authorised by the licensee, and, if not, the circumstances which ignited the fire.

Environment Protection Licence

- c) The time and date that the fire ceased and whether it burnt out or was extinguished.
- d) The location of fire (eg. clean timber stockpile, putrescible garbage cell, etc).
- e) Prevailing weather conditions.
- f) Observations made in regard to smoke direction and dispersion.
- g) The amount of waste that was combusted by the fire.
- h) Action taken to extinguish the fire.

R4.2 The licensee must notify the EPA in accordance with conditions R2.1 and R2.2 of all fires at the premises as soon as practical after becoming aware of the incident.

7 General Conditions

G1 Copy of licence kept at the premises or plant

- G1.1** A copy of this licence must be kept at the premises to which the licence applies.
- G1.2** The licence must be produced to any authorised officer of the EPA who asks to see it.
- G1.3** The licence must be available for inspection by any employee or agent of the licensee working at the premises.

8 Special conditions

E1 Closure Plan

- E1.1** The licensee must implement the closure plan as approved by the EPA

Note: The closure plan referred to is the version of the document supplied to the EPA on 14 May 2010 entitled "Katoomba Waste Management Facility Post Closure Management Plan" dated 21 November 2017 (EPA Reference DOC18/85072).

- E1.2** Within twenty eight (28) days of the completion of the final capping, the licensee must provide the EPA with a written statement that the construction of the final capping was undertaken in accordance with the EPA approved closure plan. Where the final capping was not undertaken in accordance with the EPA approved closure plan, the licensee must provide within twenty eight (28) days of the completion of the final capping:
 - a) Where the construction of the final capping deviated from the EPA approved closure plan;
 - b) Reason(s) why the final capping deviated from the EPA approved closure plan; and,
 - c) An analysis of the impact of the deviations from the EPA approved closure plan on the post closure performance of the landfill.

Dictionary

General Dictionary

3DGM [in relation to a concentration limit]	Means the three day geometric mean, which is calculated by multiplying the results of the analysis of three samples collected on consecutive days and then taking the cubed root of that amount. Where one or more of the samples is zero or below the detection limit for the analysis, then 1 or the detection limit respectively should be used in place of those samples
Act	Means the Protection of the Environment Operations Act 1997
activity	Means a scheduled or non-scheduled activity within the meaning of the Protection of the Environment Operations Act 1997
actual load	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2022
AM	Together with a number, means an ambient air monitoring method of that number prescribed by the Approved Methods for the Sampling and Analysis of Air Pollutants in New South Wales.
AMG	Australian Map Grid
anniversary date	The anniversary date is the anniversary each year of the date of issue of the licence. In the case of a licence continued in force by the Protection of the Environment Operations Act 1997, the date of issue of the licence is the first anniversary of the date of issue or last renewal of the licence following the commencement of the Act.
Approved Methods Publication	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2022
assessable pollutants	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2022
BOD	Means biochemical oxygen demand
CEM	Together with a number, means a continuous emission monitoring method of that number prescribed by the <i>Approved Methods for the Sampling and Analysis of Air Pollutants in New South Wales</i> .

Environment Protection Licence

COD	Means chemical oxygen demand
composite sample	Unless otherwise specifically approved in writing by the EPA, a sample consisting of 24 individual samples collected at hourly intervals and each having an equivalent volume.
cond.	Means conductivity
due date	Means: i) not later than 60 days after the end of each reporting period; or ii) in the case of a transferring licence - not later than 60 days after the date the transfer was granted.
environment	Has the same meaning as in the Protection of the Environment Operations Act 1997
environment protection legislation	Has the same meaning as in the Protection of the Environment Administration Act 1991
EPA	Means the Environment Protection Authority of New South Wales.
EPA Online digital portal	Means eConnect EPA
general solid waste (non-putrescible)	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
flow weighted composite sample	Means a sample whose composites are sized in proportion to the flow at each composites time of collection.
general solid waste (putrescible)	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
grab sample	Means a single sample taken at a point at a single time
hazardous waste	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
licensee	Means the licence holder described at the front of this licence
Licensing Fee Category (Regulation)	Means the numbered short descriptions in Schedule 1 of the Protection of the Environment Operations (General) Regulation 2022.
load calculation protocol	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2022

Environment Protection Licence

local authority	Has the same meaning as in the Protection of the Environment Operations Act 1997
material harm	Has the same meaning as in section 147 of the Protection of the Environment Operations Act 1997
MBAS	Means methylene blue active substances
Minister	Means the Minister administering the Protection of the Environment Operations Act 1997
mobile plant	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
motor vehicle	Has the same meaning as in the Protection of the Environment Operations Act 1997
O&G	Means oil and grease
Percentile [in relation to a concentration limit of a sample]	Means that percentage [eg.50%] of the number of samples taken that must meet the concentration limit specified in the licence for that pollutant over a specified period of time. In this licence, the specified period of time is the Reporting Period unless otherwise stated in this licence.
plant	Includes all plant within the meaning of the Protection of the Environment Operations Act 1997 as well as motor vehicles.
pollution incident	Has the same meaning as in the Protection of the Environment Operations Act 1997
Pollution of waters [or water pollution]	Has the same meaning as in the Protection of the Environment Operations Act 1997
premises	Means the premises described in condition A2.1
public authority	Has the same meaning as in the Protection of the Environment Operations Act 1997
regional office	Means the relevant EPA office referred to in the Contacting the EPA document accompanying this licence
reporting period	For the purposes of this licence, the reporting period means the period of 12 months after the issue of the licence, and each subsequent period of 12 months. In the case of a licence continued in force by the Protection of the Environment Operations Act 1997, the date of issue of the licence is the first anniversary of the date of issue or last renewal of the licence following the commencement of the Act.

Environment Protection Licence

restricted solid waste	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
scheduled activity	Means an activity listed in Schedule 1 of the Protection of the Environment Operations Act 1997
special waste	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
TM	Together with a number, means a test method of that number prescribed by the Approved Methods for the Sampling and Analysis of Air Pollutants in New South Wales.
TSP	Means total suspended particles
TSS	Means total suspended solids
Type 1 substance	Means the elements antimony, arsenic, cadmium, lead or mercury or any compound containing one or more of those elements
Type 2 substance	Means the elements beryllium, chromium, cobalt, manganese, nickel, selenium, tin or vanadium or any compound containing one or more of those elements
utilisation area	Means any area shown as a utilisation area on a map submitted with the application for this licence
waste	Has the same meaning as in the Protection of the Environment Operations Act 1997
waste type	Means liquid, restricted solid waste, general solid waste (putrescible), general solid waste (non - putrescible), special waste or hazardous waste
wellhead	Has the same meaning as in Schedule 1 of the Protection of the Environment Operations (General) Regulation 2022

Environment Protection Licence

End Notes

Licence varied by notice POEO-1568, issued on 05-06-2026

Licence varied by notice 1652283 issued on 31-Oct-2025

Licence varied by notice 1508286 issued on 02-Oct-2012

Licence varied by a change to the DECCW region, issued on 01-Sep-2010, which came into effect on 01-Sep-2010.
